

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (Currently Amended) A plaster with a base layer, having a thickness between 20 μm to 100 μm , a working layer and an adhesive layer, whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer is rough, and includes one of a surface treatment and a surface coating so that it is either lipophilic or hydrophilic.
2. (Cancelled)
3. (Cancelled)
4. (Previously Amended) The plaster according to claim 1, wherein the external surface exhibits an imprint with a skin pattern.
5. (Previously Amended) The plaster according to claim 1, wherein the working layer comprises at least one microencapsulated active substance.
6. (Previously Amended) The plaster according to Claim 5, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

7. (Previously Amended) The plaster according to claim 1, wherein the base layer bears a printing-ink layer.
8. (Previously Amended) The plaster according to claim 7, wherein the base layer is made out of a transparent material, and the printing-ink layer is situated between the base layer and the adhesive layer.
9. (Previously Amended) The plaster according to claim 1, wherein the base layer is made out of rubber.
10. (Cancelled)
11. (Previously Amended) The plaster according to claim 1, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.
12. (Cancelled)
13. (Previously Amended) A set consisting of at least one plaster according to Claim 8 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.
14. (Previously Amended) A set consisting of at least one plaster according to Claim 1, wherein the set comprises a plurality of plasters of varying size which have been punched out of

a planar material.

15. (Previously Amended) The plaster according to claim 1, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 1.

16. (Previously Amended) The plaster according to claim 6, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

17. (Previously Amended) The plaster according to claim 6, wherein the skin care products comprise soothing oils.

18. (Currently Amended) The plaster according to claim [[10]]_1, wherein the base layer has a thickness between 30 μm and 60 μm .

19. (Currently Amended) A plaster with a base layer, having a thickness between 20 μm to 100 μm , a working layer and an adhesive layer, whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer exhibits an imprint with a skin pattern, and includes one of a surface treatment and a surface coating so that the external surface is either lipophilic or hydrophilic.

20. (Previously Added) The plaster according to Claim 19, wherein the external surface is rough.

21. (Previously Added) The plaster according to claim 19, wherein the working layer comprises at least one microencapsulated active substance.

22. (Previously Added) The plaster according to Claim 21, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

23. (Previously Added) The plaster according to claim 19, wherein the base layer bears a printing-ink layer.

24. (Previously Added) The plaster according to claim 23, wherein the base layer is made out of a transparent material, and the printing-ink layer is situated between the base layer and the adhesive layer.

25. (Previously Added) The plaster according to claim 19, wherein the base layer is made out of rubber.

26. (Cancelled)

27. (Previously Added) The plaster according to claim 19, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.
28. (Previously Added) A set consisting of at least one plaster according to Claim 24 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.
29. (Previously Added) A set consisting of at least one plaster according to Claim 19, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.
30. (Previously Added) The plaster according to claim 19, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 19.
31. (Previously Added) The plaster according to claim 22, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.
32. (Previously Added) The plaster according to claim 22, wherein the skin care products comprise soothing oils.
33. (Currently Amended) The plaster according to claim ~~[[26]]~~ 19, wherein the base layer has a thickness between 30 μm and 60 μm .

34. (Currently Amended) A plaster with a base layer, having a thickness between 20 μm to 100 μm , a working layer and an adhesive layer, wherein the base layer bears a printing-ink layer, and whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer includes one of a surface treatment and a surface coating so that the external surface is either lipophilic or hydrophilic.

35. (Previously Added) The plaster according to claim 34, wherein the external surface exhibits an imprint with a skin pattern.

36. (Previously Added) The plaster according to Claim 34, wherein the external surface is rough.

37. (Previously Added) The plaster according to claim 34, wherein the working layer comprises at least one microencapsulated active substance.

38. (Previously Added) The plaster according to Claim 37, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

39. (Previously Added) The plaster according to claim 34, wherein the base layer is made out of a transparent material, and the printing-ink layer is situated between the base layer and the adhesive layer.

40. (Previously Added) The plaster according to claim 34, wherein the base layer is made out of rubber.

41. (Cancelled)

42. (Previously Added) The plaster according to claim 34, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.

43. (Previously Added) A set consisting of at least one plaster according to Claim 39 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.

44. (Previously Added) A set consisting of at least one plaster according to Claim 34, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.

45. (Previously Added) The plaster according to claim 34, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 34.

46. (Previously Added) The plaster according to claim 38, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.
47. (Previously Added) The plaster according to claim 38, wherein the skin care products comprise soothing oils.
48. (Currently Amended) The plaster according to claim ~~[[41]]~~ 34, wherein the base layer has a thickness between 30 μm and 60 μm .
49. (Currently Amended) A plaster with a base layer made out of a transparent material, ~~[[the base layer]]~~ having a thickness between 20 μm to 100 μm , a working layer and an adhesive layer, wherein the base layer bears a printing-ink layer situated between the base layer and the adhesive layer, and whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer includes one of a surface treatment and a surface coating so that the external surface is either lipophilic or hydrophilic.
50. (Previously Added) The plaster according to claim 49, wherein the external surface exhibits an imprint with a skin pattern.
51. (Previously Added) The plaster according to Claim 49, wherein the external surface is rough.

52. (Previously Added) The plaster according to claim 49, wherein the working layer comprises at least one microencapsulated active substance.

53. (Previously Added) The plaster according to Claim 52, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

54. (Previously Added) The plaster according to claim 49, wherein the base layer is made out of rubber.

55. (Cancelled)

56. (Previously Added) The plaster according to claim 49, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.

57. (Previously Added) A set consisting of at least one plaster according to Claim 49 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.

58. (Previously Added) A set consisting of at least one plaster according to Claim 49, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.

59. (Previously Added) The plaster according to claim 49, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 34.

60. (Previously Added) The plaster according to claim 53, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

61. (Previously Added) The plaster according to claim 53, wherein the skin care products comprise soothing oils.

62. (Currently Amended) The plaster according to claim ~~[[55]]~~ 49, wherein the base layer has a thickness between 30 μm and 60 μm .
